Elitism: Many still consider elitism as a negative trait, but it can be a positive trait if it is used to motivate oneself to achieve excellence. Polymath and biological. Elitism is a social hierarchy that is based on merit, but it can also be based on other factors such as wealth, power, and influence. Elitism can be a double-edged sword, as it can motivate people to achieve excellence, but it can also lead to a sense of superiority and a lack of empathy for others.
